

# Panel of mortgage advisors

When you buy a home it is important that you make informed decisions so that you can afford to enjoy your new home for a long time. To help you with this, below is a list of mortgage advisors that form Moat's panel.

The organisations on this panel are professionally qualified and experienced in all matters associated with the shared ownership process. This makes a big difference to how smoothly your purchase proceeds. They have been selected because they show service levels we expect to be provided to our customers.

We monitor customer feedback to make sure they offer value for money and provide a good service. However, please note that Moat accepts no liability for the performance or actions of any of these organisations.
